PROFESSIONAL SUMMARY

Technical support specialist with nearly five years in high-volume, customer-facing support at Discovery Health and Amazon UK, now building a career in cloud through the AWS re/Start programme through Praesignis and the AWS Cloud Practitioner exam (26 November 2026). Experienced in escalating issues, reporting root causes to DevOps teams and working across departments, and recognised as a Top Performer in Amazon UK Retail (2025). Codes in Python, C#, Java and JavaScript, and has completed 1,800+ AI code evaluations for Outlier AI. Seeking a cloud support, cloud engineer, development or cloud security role.

CORE SKILLS

Cloud and Infrastructure: AWS (hosting and deployment of web applications), AWS Cloud Practitioner (in progress), Windows 11, macOS and Linux, PC hardware repair and rebuilds, electronics, circuits and microcontrollers

Development: Python, C#, Java, C, JavaScript, PHP, Node.js, HTML, CSS, Angular, React

Data and Tools: Proficient across Microsoft products, including Access, Excel, Word, PowerPoint and Power BI dashboards; MySQL; Git and GitHub (GitHub Foundations certified)

Technical Support: Troubleshooting software, hardware and connectivity faults, log analysis, remote screen-share support, ticket management and escalation, root-cause reporting

PROFESSIONAL EXPERIENCE

Customer Service Specialist (Technical Support Consultant), Amazon UK

June 2023 – Present | Remote

- Provide cross-departmental support covering customer service, shipping and delivery for Amazon Logistics, and Amazon Digital and Devices Services, after completing two Back-up Work Group (BUWG) upskills: Shipping and Delivery, and Digital
- Resolve around 50 calls and chats per day for UK customers, including escalated complaints
- Troubleshoot Amazon and third-party devices for connectivity and hardware faults, using screen-share sessions, device log analysis, factory resets, and repair, return or replacement processing
- Use internal ticketing systems to escalate stuck processes to fulfilment centres, Account Management specialists and Amazon Business
- Member of FixIt, a project launched in April 2026 and led by an Operational Manager, in which agents, team managers and operational managers identify systemic platform issues, gather supporting data from affected departments, file tickets with the DevOps team, track them, and report resolutions back to the departments involved; 24 tickets filed since launch (about 4 per month), 7 resolved to date
- Awarded Top Performer, UK Marketplace, Retail Department, at the 2025 Amazon Top Performer Quarterly Awards
- Member of Amazon Gives, joining beach clean-ups, food drives and volunteering at children's homes and animal shelters

AI Coding Evaluator and Trainer (Expert Tasker), Outlier AI

December 2023 – Present | Part-time, remote

- Completed 1,800+ evaluations across more than 20 projects for clients ranging from start-ups to Fortune 500 companies (client names confidential under NDA)
- Progressed from General Code Reviewer on general LLM improvement to Expert Tasker on specialised projects developing and integrating coding-specific features, including pattern recognition and classification of data supplied to the models, primarily in Python and SQL
- Complete tasks including debugging, code generation, test writing and code explanation to improve model accuracy and functionality
- Write prompts and questions in Python, Java, C# and MySQL to test model understanding of programming concepts
- Evaluate and rank AI-generated code, and edit responses to improve quality
- Retained as an Expert Tasker on high-priority projects and selected for additional training in rating other taskers' work

Specialised Service Consultant (KeyCare), Discovery Health Medical Scheme

November 2021 – June 2023 | On-site, Coega IDZ

- Handled 50–60 calls per day for KeyCare members, supporting them by phone and email through to resolution
- Monthly Top Performer or top 3 in my team and business unit against KeyCare targets
- Became a subject matter expert on the KeyCare series and ran 5+ upskills, training around 10 colleagues each time
- Guided members through the Discovery website and mobile app
- Allocated manual payments to policies and transferred funds between accounts and policies

Earlier Roles

- **Bartender, Something Good Roadhouse** (seasonal, Dec 2019): managed stock and bar service and operated the Point of Sale system while serving customers
- **Surveyor, L and D Agency Group** (Oct 2018 – Jan 2019): collected in-store and public survey data for Ask Afrika and took part in international product pre-launch focus groups
- **Event Helper, BWK Events** (Feb – Sep 2018): supported catering and event planning for seminars and Department of Education Western Cape project launches

PROJECTS

- **Personal Portfolio Website:** live demo (currently being updated)
- **Braai and Grill Business Concept:** website for a small restaurant business to increase traffic, support managers with inventory management and take online orders with order notifications, hosted on AWS (live demo)

EDUCATION

BCom Computer Sciences and Information Systems, Nelson Mandela University, Port Elizabeth
2023 – Present | Two of three years completed, resuming 2027 | Majors: Computer Science and Programming, Information Systems, Business Accounting, Business Management

BEng Mechatronic Engineering (incomplete), Nelson Mandela University, Port Elizabeth
2019 – 2022 | Modules in Computer Science and Programming, Electrical Engineering and Mechanical Engineering, including hands-on PC hardware disassembly, repair and rebuilds

National Senior Certificate, St. George's College, Port Elizabeth
2014 – 2018 | Includes Mathematics, Advanced Programming Mathematics and Physical Science

CERTIFICATIONS

- AWS Certified Cloud Practitioner (exam on 26 November 2026, via AWS re/Start through Praesignis)
- GitHub Foundations
- Sololearn: Introduction to C#, Web Developer with Angular, Introduction to JavaScript, Introduction to SQL, SQL Intermediate, Introduction to Java (2024 – 2025)

LEADERSHIP AND AWARDS

- President, Interact Rotary Club, St. George's College (2016 – 2017)
- Captain, The Forresters Soccer Club first-team, Port Elizabeth (2016 – 2017)
